Vehicle Health Diagnostic Report-4 Summary		
<b>OBD-II Emissions Test</b>	Complete Monitor Items: 0	Not Complete Monitor Items: 0

**Disclaimer**

A vehicle must operate until all of the readiness monitors have been run to know if there is an emission problem. If the battery is disconnected or the trouble codes are cleared, results will not be valid unless the readiness monitor is "complete". The vehicle must be running at operational temperature for at least 3 minutes to collect valid OBD II data PIDs.
